

THE STEEL HORSE GYPSIES

We are excited to introduce **THE STEEL HORSE GYPSIES**, an original country pop rock band on Silver Mic Records.

Originally formed in 2010 with their first radio hit “We’re All About That”, this four-piece band consists of lead singer & songwriter, Bill McConnell (first cousin of country music royalty Terri Clark), Wendell Ferguson on lead guitar (seven-time CCMA winning lead guitar player), as well as seasoned musicians John Granberg on bass along with Joe Iannuzzi on drums.

THE STEEL HORSE GYPSIES are a family friendly oriented band guaranteed to have audiences of all ages dancing, clapping and wanting more from their two one-hour set list of songs that will trigger your musical senses from country/pop/rock and even some soulful blues-like ballads.

Performing at fairs and festivals across Ontario and North America, the band is available for all types of events as a support act or headliner.
